Valiant receives its single largest order of INR 4,135 lacs

January 10, 2025

Valiant Communications [BSE: 526775] announces the receipt of its single largest order of its corporate history for supply and commissioning of its Communication, Protection and Synchronization equipment from Tejas Networks Limited [NSE: TEJASNET], a Tata Group company. The gross value of the purchase order is INR 4,135 Lacs. Whereas the end-user for the awarded project is the Gujarat Energy Transmission Corporation (GETCO).

Commenting on the above development, Mr. Inder Mohan Sood, CEO said, “Valiant is proud of being partner with Tejas Networks for these opportunities of supplying its Communication, Protection and Synchronization equipment, manufactured and supplied under the ‘Make India’ and ‘Atmanirbhar Bharat’ initiatives of Hon’ble Prime Minister of India.

The time proven successful installations of our equipment are now being recognized by global power utilities including from the developed western countries. It gives us immense pride to know that our indigenously developed and manufactured Communication, Protection and Synchronization equipment are successfully installed with satisfactory operation since 2017 at a nuclear power plant in Switzerland, the home country of various foreign MNCs of the same business domain. This demonstrates and reaffirms our vision to become the leading manufacturer and supplier of communications, transmission, protection, synchronization and cyber security products and solutions, globally. We are in the process of scaling these opportunities to show accelerated growth.

Whereas, being the indigenous manufacturer, Valiant is a natural partner in business opportunities that are notably arising in the Indian Public Sector out of the ‘Make in India’ and ‘Atmanirbhar Bharat’ initiatives of our Hon’ble Prime Minister of India.”

It is pertinent to note that Valiant has also partnered with Tejas Networks, for another project of GETCO. Wherein, Valiant with its business partner Tejas, are L1 bidders. This project is to be issued under the “Make-in-India” initiative with a business opportunity of similar scale. The final outcome of which is awaited.

About Valiant Communications: Valiant Communications is a manufacturer and exporter of a wide range of communications, transmission, protection, synchronization, NAS data storage equipment and cyber security products. It is an approved manufacturer to some of the major power utilities including Power Grid Corporation (India) and various National and State Electricity Boards, with track record of successful installations in more than 5,500+ power sub-stations worldwide including at 765kV, 440kV, 400kV, 384kV, 220kV, 132kV, 110kV, 66kV and 33kV power sub-stations.

Disclosure of information pursuant to Regulation 30 of the SEBI Listing Regulations read with Master Circular No. SEBI/HO/CFD/PoD2/CIR/P/0155 dated 11-11-2024 (as amended)
